a 5 year guarantee.  
Stands for  
instruments,  
microphones, stools,  
benches, etc

**Evidence Audio<sup>TM</sup> cables** was founded in 1997 by Tony Farinella to offer the finest Musical Instrument and studio cables available. The design methodologies are based on 30 years of research in preserving the quality of sound as it passes through electronics. The approach stems from the idea that in audio, "less is more", and that no cable can actually improve the quality of what you hear. You can only replace a cable that is causing *more* distortion with one that causes *less* damage to the signal.

 **Hear the  
difference!**

**Thomastik-Infeld strings** are known the world over. Orchestral strings, and of course flatwound bass strings. They use the same principles in all their acoustic and electric guitar strings. They feel different, sound more natural, more comfortable, stay in tune longer and last longer too. Ultimate value! Hand-made in Austria since 1919, these premium strings will bring out a whole new sound from your instrument and feel totally comfortable while playing. You may never go back to other strings...

K&M stands are the leaders in stands for musical instruments, including fretted, non-fretted, wind, microphone, keyboards, monitors, LED lights, and many more. German quality, inspired by musician's needs.

You can see a wide selection in our showroom at the **best prices in Europe!**

## Drummers!

We know how every drummer likes their drums to sound just right. So at the very least, you need to carry with you your sticks, your cymbals and maybe your snare. Oh, and the drum pedal because you know exactly how it feels under your foot. Well, **Mono** has you covered. Cymbal cases, snare cases, pedal cases, stick bags. Bullet-proof protection, very clever ergonomics and thoughtful design.

## PREMIUM MUSICIANS' ACCESSORIES

We are opposite the Esso petrol station before the Ay Antonios market traffic lights (coming from Makarios Avenue)

Accessories from the world's finest manufacturers. You can see them and try them, right here in Cyprus.

Used equipment section available. Bring your gear to sell (fees apply)
